

- I can the plot the top 10 most common words in The War of the Worlds with this code:

```
text_waroftheworlds %>%  
  count(word) %>%  
  top_n(10) %>%  
  mutate(word = reorder(word, n)) %>%  
  ggplot(aes(x = word, y = n, fill = word)) +  
  geom_col() +  
  coord_flip() +  
  guides(fill = FALSE) +  
  labs(title = "Top 10 word in The War of the Worlds")
```
