

A dataset

Using the Google dataset search, I looked for the World Happiness data - to download it, I had to create a free account (not always required):

<https://data.world/laurel/world-happiness-report-data>

The screenshot shows the Google Dataset Search interface for the dataset 'laurel/world-happiness-report-data'. The page includes a search bar, navigation tabs (Overview, Contributors, Discussion, Activity), and a 'Launch workspace' button. The main content area displays the dataset's source (Helliwell, J., Layard, R., & Sachs, J. (2017). World Happiness Report 2017, New York: Sustainable Development Solutions Network.) and a 'DATA DICTIONARY' link. Below this, a table of 2 files is shown, with the first file 'online-data-chapter-2-whr-2017.xlsx' expanded to show a preview of the data. The preview table has columns for 'wp5_country', 'country', 'year', 'life_ladder', 'log_gdp_per_capita', and 'social_support'. The right sidebar shows recent comments from users like @kieronell and @quantifiedata.
